### MEMORANDUM

**TO:** Board of Governors

**FROM:** Mark Bialek   
Inspector General

**SUBJECT:** 2016 Audit of the Board's Financial Statements and Internal Control Over Financial Reporting

This memorandum transmits the Independent Auditors' Report, prepared by KPMG LLP (KPMG), on the Board of Governors of the Federal Reserve System's (Board) financial statements and internal control over financial reporting and KPMG's Report on Compliance and Other Matters. The Office of Inspector General contracted with KPMG to audit the financial statements of the Board as of and for the years ended December 31, 2016 and 2015, and to audit the Board's internal control over financial reporting as of December 31, 2016.

The contract requires the audit of the financial statements to be performed in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the auditing standards of the Public Company Accounting Oversight Board. The contract also requires the audit of internal control over financial reporting to be performed in accordance with the attestation standards established by the American Institute of Certified Public Accountants and in accordance with the auditing standards of the Public Company Accounting Oversight Board.

The Office of Inspector General reviews and monitors the work of KPMG to ensure compliance with the contract. KPMG is responsible for the accompanying Independent Auditors' Report and the Report on Compliance and Other Matters, both dated March 6, 2017.

We do not express an opinion on the Board's financial statements or internal control over financial reporting. In addition, we do not draw conclusions on the Report on Compliance and Other Matters.

**Management's Report on Internal Control over Financial Reporting**

To the Committee on Board Affairs

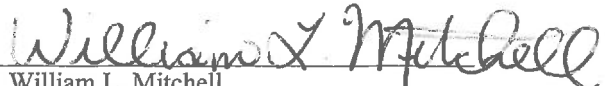

The management of the Board of Governors of the Federal Reserve System (the Board) is responsible for the preparation and fair presentation of the balance sheet as of December 31, 2016 and 2015, and the statement of operations and cash flows for the years then ended (the financial statements). The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, and, as such, include some amounts that are based on management judgments and estimates. To our knowledge, the financial statements are, in all material respects, fairly presented in conformity with generally accepted accounting principles and include all disclosures necessary for such fair presentation.

The management of the Board is responsible for establishing and maintaining effective internal control over financial reporting as it relates to the financial statements. The Board's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with accounting principles generally accepted in the United States of America. The Board's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the Board's assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that the Board's receipts and expenditures are being made only in accordance with authorizations of its management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Board's assets that could have a material effect on its financial statements.

Even effective internal control, no matter how well designed, has inherent limitations, including the possibility of human error, and therefore can provide only reasonable assurance with respect to the preparation of reliable financial statements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The management of the Board assessed its internal control over financial reporting based upon the criteria established in the *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, we believe that the Board maintained effective internal control over financial reporting.

## Independent Auditors' Report

To the Board of Governors of the Federal Reserve System:

We have audited the accompanying balance sheets of the Board of Governors of the Federal Reserve System (the "Board") as of December 31, 2016 and 2015, and the related statements of operations and cash flows for the years then ended. We also have audited the Board's internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Board's management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these financial statements and an opinion on the Board's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States), in accordance with auditing standards generally accepted in the United States of America, and in accordance with the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

An entity's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and directors of the entity; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Board as of December 31, 2016 and 2015, and the results of its operations and its cash flows for the years, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Board

maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In accordance with Government Auditing Standards, we have also issued a report dated March 6, 2017 on our tests of the Board's compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Board's compliance.

## **Board of Governors of the Federal Reserve System Notes to Financial Statements as of and for the Years Ended December 31, 2016 and 2015**

---

### **(1) Structure**

The Federal Reserve System (the System) was established by Congress in 1913 and consists of the Board of Governors (the Board), the Federal Open Market Committee (FOMC), the twelve regional Federal Reserve Banks (Reserve Banks), the Federal Advisory Council, and the private commercial banks that are members of the System. The Board, unlike the Reserve Banks, was established as a federal government agency and is located in Washington, D.C. The Board has established two other committees that directly provide perspectives and input from various sectors of the economy: the Community Advisory Council and the Community Depository Institutions Advisory Council.

The Board is required by the Federal Reserve Act (the Act) to report its operations to the Speaker of the House of Representatives. The Act also requires the Board, each year, to order a financial audit of each Reserve Bank and to publish each week a statement of the financial condition of each Reserve Bank and a combined statement for all of the Reserve Banks. Accordingly, the Board believes that the best financial disclosure consistent with law is achieved by issuing separate financial statements for the Board and for the Reserve Banks. Therefore, the accompanying financial statements include only the results of operations and activities of the Board. Combined financial statements for the Reserve Banks are included in the Board's annual report to the Speaker of the House of Representatives and weekly statements are available on the Board's public website.

The Dodd-Frank Wall Street Reform and Consumer Financial Protection Act of 2010 (Dodd-Frank Act) established the Bureau of Consumer Financial Protection (Bureau) as an independent bureau within the System and designated the Board's Office of Inspector General (OIG) as the OIG for the Bureau. As required by the Dodd-Frank Act, the Board transferred certain responsibilities to the Bureau. The Dodd-Frank Act requires the Board to fund the Bureau from the combined earnings of the System. Section 1017 of the Dodd-Frank Act provides that the financial statements of the Bureau are not to be consolidated with those of the Board or the System. Accordingly, the Board's financial statements do not include financial data of the Bureau other than the funding that the Board is required by the Dodd-Frank Act to provide.

### **(2) Operations and Services**

The Board's responsibilities require thorough analysis of domestic and international financial and economic developments. The Board carries out those responsibilities in conjunction with the Reserve Banks and the FOMC. The Board also exercises general oversight of the operations of the Reserve Banks and exercises broad responsibility in the nation's payments system. Policy regarding open market operations is established by the FOMC. However, the Board has sole authority over changes in reserve requirements, and it must approve any change in the discount rate initiated by a Reserve Bank. The Board also plays a major role in the supervision and regulation of the U.S. financial system. It has supervisory responsibilities for state-chartered banks that are members of the System, bank holding companies, savings and loan holding companies, foreign activities of member banks, U.S. activities of foreign banks, and any nonbank financial companies the Financial Stability Oversight Council (FSOC) has determined should be supervised by the Board. Although the Dodd-Frank Act gave the Bureau general rule-writing responsibility for federal consumer financial laws, the Board retains rule-writing responsibility under the Community Reinvestment Act and other

specific statutory provisions. The Board also enforces the requirements of federal consumer financial laws for state member banks with assets of \$10 billion or less. In addition, the Board enforces certain other consumer laws at all state member banks, regardless of size.

The Dodd-Frank Act directs the Board to collect assessments, fees, or other charges equal to the total expenses the Board estimates are necessary or appropriate to carry out the supervisory and regulatory responsibilities of the Board for bank holding companies and savings and loan holding companies with total consolidated assets of \$50 billion or more and nonbank financial companies designated for Board supervision by the FSOC. As an agent, the Board does not recognize the supervision and regulation assessments as revenue nor does the Board use the collections to fund Board expenses; the funds are transferred to the United States Treasury (Treasury).

Beginning in December 2015, the Fixing America's Surface Transportation Act (FAST Act) requires that any amount of surplus funds of the Reserve Banks that exceed or would exceed \$10 billion be transferred to the Treasury via the Board. As an intermediary transfer agent, the Board does not recognize the remittances as revenue nor does the Board use the remittances to fund Board expenses. Additional information and disclosures regarding these remittances to the Treasury can be found in the combined financial statements of the Federal Reserve Banks.

### (3) Significant Accounting Policies

**Basis of Accounting** — The Board prepares its financial statements in accordance with accounting principles generally accepted in the United States (GAAP) on an accrual basis of accounting.

**Assessments to Fund the Board** — The Federal Reserve Act authorizes the Board to levy an assessment on the Reserve Banks to fund its operations. The Board allocates the assessment to each Reserve Bank based on the Reserve Bank's capital and surplus balances. The Board recognizes the assessment in the period in which it is assessed.

**Assessments to Fund the Bureau** — The Board assesses the Reserve Banks for the funds transferred to the Bureau based on each Reserve Bank's capital and surplus balances. The Board recognizes the assessment in the period in which it is assessed. These assessments and transfers are reported separately from the Board's operating activities in the Board's Statements of Operations.

**Assessments for Currency Costs** — The Board issues the nation's currency (in the form of Federal Reserve notes), and the Reserve Banks distribute currency through depository institutions. The Board incurs expenses and assesses the Reserve Banks for the expenses related to producing, issuing, and retiring Federal Reserve notes as well as providing educational services. The assessment is allocated based on each Reserve Bank's share of the number of notes comprising the System's net liability for Federal Reserve notes on December 31 of the prior year. The Board recognizes the assessment in the year in which the associated expenses are incurred. These expenses and assessments are reported separately from the Board's operating activities in the Board's Statements of Operations.

**Civil Money Penalties** — The Board has enforcement authority over the financial institutions it supervises and their affiliated parties, including the authority to assess civil money penalties. As directed by statute, all civil money penalties that are assessed and collected by the Board are remitted to either the Treasury or the Federal Emergency Management Agency (FEMA). As an agent, the Board does not recognize civil money penalties as revenue nor does the Board use civil money penalties to fund Board expenses. Civil money penalties whose collection is contingent upon fulfillment of certain conditions in the enforcement action are not recorded in the Board's financial

records. Checks for civil money penalties made payable to the National Flood Insurance Program are forwarded to FEMA and are not recorded in the Board's financial records.

**Accounts Receivable and Allowance for Doubtful Accounts** — Accounts receivable are recorded when amounts are billed but not yet received and are shown net of the allowance for doubtful accounts. Accounts receivable considered uncollectible are charged against the allowance account in the year they are deemed uncollectible. The allowance for doubtful accounts is adjusted monthly, based upon a review of outstanding receivables.

**Prepaid Expenses** — The Board recognizes expenses as prepaid for costs paid in advance that will be expensed with the passage of time or upon the occurrence of a triggering event in future periods.

**Property, Equipment, and Software** — The Board's property, equipment, and software are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are calculated on a straight-line basis over the estimated useful lives of the assets, which range from three to ten years for furniture and equipment, ten to fifty years for building equipment and structures, and two to five years for software. Upon the sale or other disposition of a depreciable asset, the cost and related accumulated depreciation or amortization are removed and any gain or loss is recognized. Construction in process includes costs incurred for short-term and long-term projects that have not been placed into service; the majority of the balance represents long-term building enhancement projects.

**Art Collections** — The Board has collections of works of art, historical treasures, and similar assets. These collections are maintained and held for public exhibition in furtherance of public service. Proceeds from any sales of collections are used to acquire other items for collections. The cost of collections purchased by the Board is charged to expense in the year purchased and donated collection items are not recorded. The value of the Board's collections has not been determined.

**Deferred Rent** — Leases for certain space contain scheduled rent increases over the term of the lease. Along with rent abatements and lease incentives, the scheduled rent increases are spread on a straight-line basis over the term of the lease in determining the annual rent expense to be recognized. The deferred rent represents the difference between the actual lease payments and the rent expense recognized. Lease incentives impact deferred rent and are noncash transactions.

**Benefit Obligations** — The Board records annual amounts relating to its non-qualified retirement, postretirement, and postemployment plans based on calculations that incorporate various actuarial and other assumptions, including discount rates, mortality, compensation increases, and health-care cost trends. The Board reviews the assumptions on an annual basis and makes modifications to the assumptions based on a variety of factors. The effect of the modifications is recorded in accumulated other comprehensive income and amortized to net periodic cost over future periods, which is presented in the accumulated other comprehensive income (loss) footnote.

**Estimates** — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates include useful lives of property, equipment, and software; allowance for doubtful accounts receivable; accounts payable; benefit obligations; and commitments and contingencies.

**Commitments and Contingencies** — Liabilities for loss contingencies arising from claims, assessments, litigation, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

**Tax Exempt Status** — The Board, as a federal government entity, is not subject to state or local income taxes. Federal income tax on corporations does not apply to the Board.

**Recently Issued Accounting Standards** — In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-05, *Intangibles—Goodwill and Other—Internal-Use Software* (Subtopic 350-40). This update provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. Consequently, all software licenses within the scope of subtopic 350-40 will be accounted for consistent with other licenses of intangible assets. This update is effective for the Board for the year ended December 31, 2016, and did not have a material effect on the Board's financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases* (Topic 842). This update revises the model to assess how a lease should be classified and provides guidance for lessees, requiring lessees to present right-of-use assets and lease liabilities on the balance sheet. The update is effective no later than the year ended December 31, 2020, although earlier adoption is permitted. The Board will evaluate the effect of this new guidance on its financial statements.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers* (Topic 606). This update was issued to create common revenue recognition guidance for U.S. GAAP and International Financial Reporting Standards. The guidance is applicable to all contracts for the transfer of goods or services regardless of industry or type of transaction. This update requires recognition of revenue in a manner that reflects the consideration that the entity expects to receive in return for the transfer of goods or services to customers. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers* (Topic 606): *Deferral of the Effective Date*, which delayed the required effective date of this accounting by one year. In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers* (Topic 606): *Principle versus Agent Considerations (Reporting Revenue Gross versus Net)*, which provided clarity regarding what constitutes the transfer of a good or service. In April 2016, the FASB issued ASU 2016-10, *Revenue from Contracts with Customers* (Topic 606): *Identifying Performance Obligations and Licensing*. This update provides further criteria to help identify whether goods or services within a contract are separately identifiable and, consequently, should be deemed distinct revenue streams. In May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers* (Topic 606): *Narrow-Scope Improvements and Practical Expedients*, which provides guidance on assessing collectibility, noncash consideration, and how contract modifications and completed contracts should be treated during the transition to new accounting guidance. This revenue recognition accounting guidance is effective for the Board for the year ending December 31, 2019, and is not expected to have a material effect on the Board's financial statements since the Board reports annually and satisfies all material performance obligations prior to year-end.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows* (Topic 230). The update unifies in practice how certain cash receipts and cash payments are presented and classified in the statement of cash flows by requiring eight specific cash flow rule-based changes that need to be

considered and applied. This Statement of Cash Flows guidance is effective for the Board for the year ending December 31, 2017. This update is not expected to have a material effect on the Board's financial statements since the Board is rarely involved with the eight specific cash flow classification changes.

**(4) Property, Equipment, and Software**

The following is a summary of the components of the Board's property, equipment, and software, at cost, less accumulated depreciation and amortization as of December 31, 2016 and 2015:

	As of December 31,	
	2016	2015
Land	\$ 18,640,314	\$ 18,640,314
Buildings and improvements	309,910,316	300,166,433
Construction in process	12,106,227	10,920,879
Furniture and equipment	76,735,612	82,888,372
Software in use	47,862,713	40,987,546
Software in process	6,686,732	5,275,429
Vehicles	<u>2,337,638</u>	<u>2,098,155</u>
Subtotal	474,279,552	460,977,128
Less accumulated depreciation and amortization	<u>(224,500,627)</u>	<u>(201,710,107)</u>
Property, equipment, and software – net	<u>\$ 249,778,925</u>	<u>\$259,267,021</u>

Construction in process include costs incurred in the current or prior years for long-term projects and building enhancements. In 2015, the Board recognized a loss of \$6 million related to changes in an ongoing capital project; the loss is reflected on the Statements of Operations and the Statements of Cash Flows.

**(5) Leases**

**Capital Leases** — The Board entered into capital leases for copier equipment in 2012 that terminated in May 2016. The Board entered into new capital leases in 2016 with lease terms that extend through 2020. Furniture and equipment includes capitalized leases of \$187,000 and \$1,258,000 as of 2016 and 2015, respectively. Accumulated depreciation includes \$27,000 and \$1,170,000 related to assets under capital leases as of 2016 and 2015, respectively. The depreciation expense for leased equipment is \$116,000 and \$315,000 for 2016 and 2015, respectively.

The future minimum lease payments required under the capital leases and the present value of the net minimum lease payments as of December 31, 2016, are as follows:

	Years Ended December 31,	Amount
2017		\$ 47,895
2018		47,895
2019		47,895
2020		<u>19,956</u>
Total minimum lease payments		163,641
Less amount representing maintenance		-
Net minimum lease payments		163,641
Less amount representing interest		<u>(3,360)</u>
Present value of net minimum lease payments		160,281
Less current maturities of capital lease payments		<u>(46,239)</u>
Long-term capital lease obligations		<u>\$ 114,042</u>

**Operating Leases** — The Board has entered into operating leases for copier equipment and to secure office, training, data center, and warehouse space. Several of the leases are with Reserve Banks and other governmental agencies. Minimum annual payments under the multiyear operating leases having an initial or remaining noncancelable lease term in excess of one year at December 31, 2016, are as follows:

	Years Ended December 31,	Total
2017		\$ 30,277,070
2018		30,575,985
2019		35,514,573
2020		35,833,891
After 2020		<u>133,117,267</u>
		<u>\$ 265,318,786</u>

Space rental expenses under the multiyear operating leases were \$27,765,000 and \$24,291,000 for the years ended December 31, 2016 and 2015, respectively. Copier equipment rental expenses under the multiyear operating leases were \$1,235,000 and \$985,000 for the years ended December 31, 2016 and 2015, respectively.

**Deferred Rent** — The Board recorded noncash lease incentives of \$1,009,000 and \$1,480,000 for the years ended December 31, 2016 and 2015, respectively.

#### (6) Retirement Benefits

Substantially all of the Board's employees participate in the Retirement Plan for Employees of the Federal Reserve System (the System Plan). The System Plan provides retirement benefits to employees of the Board, the Reserve Banks, the Office of Employee Benefits of the Federal Reserve System (OEB), and certain employees of the Bureau. The Federal Reserve Bank of New York (FRBNY), on behalf of the System, recognizes the net assets and costs associated with the System

Plan in its financial statements; costs associated with the System Plan are not redistributed to the Board.

Employees of the Board who became employed prior to 1984 are covered by a contributory defined benefits program under the System Plan. Employees of the Board who became employed after 1983 are covered by a non-contributory defined benefits program under the System Plan. FRBNY, on behalf of the System, funded \$580 million and \$480 million during each of the years ended December 31, 2016 and 2015, respectively. The Board was not assessed a contribution for 2016 or 2015.

In October 2014, the Society of Actuaries released new mortality tables (RP-2014) and in 2016, 2015, and 2014 new mortality projection scales (MP-2016, MP-2015, and MP-2014, respectively) for use in the valuation of benefits liabilities. The System analyzed each of these updates to the mortality tables and compared them to the System's actual mortality experience, which includes the Board's population. Based on these analyses, the System adopted the RP-2014 mortality tables and MP-2014 mortality projection scales.

**Benefits Equalization Plan** — Board employees covered under the System Plan are also covered under a Benefits Equalization Plan (BEP). Benefits paid under the BEP are limited to those benefits that cannot be paid from the System Plan due to limitations imposed by the Internal Revenue Code. Activity for the BEP as of December 31, 2016 and 2015, is summarized in the following tables:

The total accumulated retirement benefit obligation includes a liability for a supplemental retirement agreement and a benefits equalization plan under the System's Thrift Plan. The total obligation as of December 31, 2016 and 2015, is summarized in the following table:

	2016	2015
<b>Retirement benefit obligation:</b>

Total accumulated retirement benefit obligation	<u>\$74,420,719</u>	<u>\$55,064,728</u>

A relatively small number of Board employees participate in the Civil Service Retirement System or the Federal Employees' Retirement System. These defined benefit plans are administered by the U.S. Office of Personnel Management, which determines the required employer contribution levels. The Board's contributions to these plans totaled \$939,000 and \$913,000 in 2016 and 2015, respectively. The Board has no liability for future payments to retirees under these programs and is not accountable for the assets of the plans.

Employees of the Board may also participate in the System's Thrift Plan or Roth 401(k). Board contributions to members' accounts were \$25,985,000 and \$24,170,000 in 2016 and 2015, respectively.

**(7) Postretirement Benefits**

The Board provides certain life insurance programs for its active employees and retirees. Activity as of December 31, 2016 and 2015, is summarized in the following tables:

**(12) The Bureau of Consumer Financial Protection**

Beginning July 2011, section 1017 of the Dodd-Frank Act requires the Board to fund the Bureau from the combined earnings of the System, in an amount determined by the Director of the Bureau to be reasonably necessary to carry out the authorities of the Bureau under federal consumer financial law, taking into account such other sums made available to the Bureau from the preceding year (or quarter of such year). The Dodd-Frank Act limits the amount to be transferred each fiscal year to a fixed percentage of the System’s total operating expenses. The Bureau transfers funds to the Board to fund their share of OIG operations. The Board recorded revenue of \$12,900,000 during calendar years 2016 and 2015 related to OIG funding.

**(13) Currency Costs**

The Bureau of Engraving and Printing (BEP) is the sole supplier for currency printing and also provides currency retirement and meaningful access services. The Board contracts for other services

associated with currency, such as shipping, education, and quality assurance. The currency costs incurred by the Board for the years ended December 31, 2016 and 2015, are reflected in the following table:

	2016	2015

#### **(14) Commitments and Contingencies**

**Commitments** — The Board has entered into an agreement with the Federal Deposit Insurance Corporation and the Office of the Comptroller of the Currency, through the Council, to fund a portion of the enhancements and maintenance fees for a central data repository project that requires maintenance through 2020 which includes option periods.

In late 2015, the Board entered into an agreement with the other Council members to fund the development of a new Home Mortgage Disclosure Act processing system by the Bureau.

**Litigation and Contingent Liabilities** — The Board is subject to contingent liabilities which arise from litigation cases and various business contracts. These contingent liabilities arise in the normal course of operations and their ultimate disposition is unknown. Based on information currently available to management, it is management's opinion that the expected outcome of these matters, in the aggregate, will not have a material adverse effect on the financial statements.

#### **(15) Subsequent Events**

There were no subsequent events that require adjustments to or disclosures in the financial statements as of December 31, 2016. Subsequent events were evaluated through March 6, 2017, which is the date the financial statements were available to be issued.

**Independent Auditors' Report on Compliance and Other  
Matters Based on an Audit of Financial Statements  
Performed in Accordance With *Government Auditing Standards***

To the Board of Governors of the Federal Reserve System:

We have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Board of Governors of the Federal Reserve System (the "Board"), which comprise the balance sheet as of December 31, 2016, and the related statements of operations and cash flows for the year then ended, and the related notes to the financial statements. We have issued our report thereon dated March 6, 2017.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on the Board's compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's compliance. Accordingly, this communication is not suitable for any other purpose. This report is intended solely for the information and use of the Board of Governors of the Federal Reserve System and is not intended to be and should not be used by anyone other than this specified party.
