If such a request is being made because of the termination of the finance agreement, notice must be provided to the creditor, administrator, or other party within 90 days of the occurrence of the event terminating the finance agreement.

(c) If the cancellation of a GAP waiver occurs as a result of a default under the finance agreement or the repossession of the motor vehicle associated with the finance agreement, or any other termination of the finance agreement, any refund due may be paid directly to the creditor or administrator and applied as set forth in subdivision 3.

Subd. 3. **How applied.** A refund under subdivision 1 or 2 may be applied by the creditor as a reduction of the amount owed under the finance agreement, unless the borrower can show that the finance agreement has been paid in full.

Sec. 10. Minnesota Statutes 2014, section 60D.215, subdivision 2, is amended to read:

Subdivision 1. **Definitions.** (a) For purposes of this section, the terms defined in paragraphs (b) through (e) have the meanings given them.

(b) "MNvest issuer" means an entity organized under the laws of Minnesota, other than a general partnership, that satisfies the requirements of Code of Federal Regulations, title 17, part 230.147, and the following requirements:

(1) the principal office of the entity is located in Minnesota;

(2) as of the last day of the most recent semiannual fiscal period of the entity, at least 80 percent, or other threshold permitted by Code of Federal Regulations, title 17, part 230.147, of the entity's assets were located in Minnesota;

(3) except in the case of an entity whose gross revenue during the most recent period of 12 full months did not exceed \$5,000, the entity derived at least 80 percent, or other threshold permitted by Code of Federal Regulations, title 17, part 230.147, of the entity's gross revenues from the operation of a business in Minnesota during (i) the previous fiscal year, if the MNvest offering begins during the first six months of the entity's fiscal year; or (ii) during the 12 months ending on the last day of the sixth month of the entity's current fiscal year, if the MNvest offering begins following the last day;

(4) the entity does not attempt to limit its liability, or the liability of any other person, for fraud or intentional misrepresentation in connection with the offering of its securities in a MNvest offering; and

(5) the entity is not:

(i) engaged in the business of investing, reinvesting, owning, holding, or trading in securities, except that the entity may hold securities of one class in an entity that is not itself engaged in the business of investing, reinvesting, owning, holding, or trading in securities; or

(ii) subject to the reporting requirements of the Securities and Exchange Act of 1934, section 13 or 15(d), United States Code, title 15, sections 78m and 78o(d).

(c) "MNvest offering" means an offer, or an offer and sale, of securities by a MNvest issuer that: (1) is conducted exclusively through a MNvest portal, and (2) satisfies the requirements of this section and other requirements the administrator imposes by rule.

(d) "MNvest portal" means an Internet Web site that is operated by a portal operator for the offer or sale of MNvest offerings under this section or registered securities under section 80A.50, paragraph (b), and satisfies the requirements of subdivision 6.

(e) "Portal operator" means an entity, including an issuer, that:

(1) is authorized to do business in Minnesota;

(2) is a broker-dealer registered under this chapter or otherwise registers with the administrator as a portal operator in accordance with subdivision 7, paragraph (a), and is therefore excluded from broker-dealer registration; and

(3) satisfies such other conditions as the administrator may determine.

Subd. 2. **Generally.** The offer, sale, and issuance of securities in a MNvest offering is exempt from the requirements of sections 80A.49 to 80A.54, except 80A.50, paragraph (a), clause (3), and 80A.71, if the issuer meets the qualifications under this section.

Subd. 3. **MNvest offering.** A MNvest offering must satisfy the following requirements:

(1) the issuer must be a MNvest issuer on the date that its securities are first offered for sale in the offering and continuously through the closing of the offering;

(2) the offering must meet the requirements of the federal exemption for intrastate offerings in section 3(a)(11) of the Securities Act of 1933, United States Code, title 15, section 77c(a)(11), and Rule 147 adopted under the Securities Act of 1933, Code of Federal Regulations, title 17, part 230.147;

(3) the sale of securities must be conducted exclusively through a MNvest portal;

(4) the MNvest issuer shall require the portal operator to provide or make available to prospective purchasers through the MNvest portal a copy of the MNvest issuer's balance sheet and income statement for the MNvest issuer's most recent fiscal year, if the issuer was in existence. For offerings beginning more than 90 days after the issuer's most recent fiscal year end, or if the MNvest issuer was not in existence the previous calendar year, the MNvest issuer must provide or make available a balance sheet as of a date not more than 90 days before the commencement of the MNvest offering for the MNvest issuer's most recently completed fiscal year, or such shorter portion the MNvest issuer was in existence during that period, and the year-to-date period, or inception-to-date period, if shorter, corresponding with the more recent balance sheet required by this clause;

(5) in any 12-month period, the MNvest issuer shall not raise more than the aggregate amounts set forth in item (i) or (ii), either in cash or other consideration, in connection with one or more MNvest offerings:

(i) \$2,000,000 if the financial statements described in clause (4) have been (A) audited by a certified public accountant firm licensed under chapter 326A using auditing standards issued by either the American Institute of Certified Public Accountants or the Public Company Oversight Board, or (B) reviewed by a certified public accountant firm licensed under chapter 326A using the Statements on Standards for Accounting and Review Services issued by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants; or

(ii) \$1,000,000 if the financial statements described in clause (4) have not been audited or reviewed as described in item (i);

(6) the MNvest issuer must use at least 80 percent of the net proceeds of the offering in connection with the operation of its business within Minnesota;

(7) no single purchaser may purchase more than \$10,000 in securities of the MNvest issuer under this exemption in connection with a single MNvest offering unless the purchaser is an accredited investor;

(8) all payments for the purchase of securities must be held in escrow until the aggregate capital deposited into escrow from all purchasers is equal to or greater than the stated minimum offering amount. Purchasers will receive a return of all their subscription funds if the minimum offering amount is not raised by the stipulated expiration date required in subdivision 4, clause (2). The escrow agent must be a bank, regulated trust company, savings bank, savings association, or credit union authorized to do business in Minnesota. Prior to the execution of the escrow agreement between the issuer and the escrow agent, the escrow agent must conduct searches of the issuer, its executive officers, directors, governors, and managers, as provided to the escrow agent by the portal operator, against the Specially Designated Nationals list maintained by the Office of Foreign Assets Control. The escrow agent is only responsible to act at the direction of the party establishing the escrow account and does not have a duty or liability, contractual or otherwise, to an investor or other person except as set forth in the applicable escrow agreement or other contract;

(9) the MNvest issuer shall require the portal operator to make available to the prospective purchaser through the MNvest portal a disclosure document that meets the requirements set forth in subdivision 4;

(10) before selling securities to a prospective purchaser on a MNvest portal, the MNvest issuer shall require the portal operator to obtain from the prospective purchaser the certification required under subdivision 5;

(B) the offering is being made in reliance on the exemption under this section;

(C) the offering is directed only to residents of the state;

(D) all offers and sales are made through a MNvest portal; and

(E) the Department of Commerce is the securities regulator in Minnesota;

(ii) along with the disclosures required under item (i), the advertisement may contain no more than the following information:

Subd. 4. Required disclosures to prospective MNvest offering purchasers. The MNvest issuer shall require the portal operator to make available to the prospective purchaser through the MNvest portal a printable or downloadable disclosure document containing the following:

(1) the MNvest issuer's type of entity, the address and telephone number of its principal office, its formation history for the previous five years, a summary of the material facts of its business plan and its capital structure, and its intended use of the offering proceeds, including any amounts to be paid from the proceeds of the MNvest offering, as compensation or otherwise, to an owner, executive officer, director, governor, manager, member, or other person occupying a similar status or performing similar functions on behalf of the MNvest issuer;

(5) the identity of all persons owning more than ten percent of any class of equity interests in the company;

(6) the identity of the executive officers, directors, governors, managers, members, and other persons occupying a similar status or performing similar functions in the name of and on the behalf of the MNvest issuer, including their titles and their relevant experience;

(7) the terms and conditions of the securities being offered, a description of investor exit strategies, and of any outstanding securities of the MNvest issuer; the minimum and maximum amount of securities being offered; either the percentage economic ownership of the MNvest issuer represented by the offered securities, assuming the minimum and, if applicable, maximum number of securities being offered is sold, or the valuation of the MNvest issuer implied by the price of the offered securities; the price per share, unit, or interest of the securities being offered; any restrictions on transfer of the securities being offered; and a disclosure that any future issuance of securities might dilute the value of securities being offered;

(8) the identity of and consideration payable to a person who has been or will be retained by the MNvest issuer to assist the MNvest issuer in conducting the offering and sale of the securities, including a portal operator, but excluding (i) persons acting primarily as accountants or attorneys, and (ii) employees whose primary job responsibilities involve operating the business of the MNvest issuer rather than assisting the MNvest issuer in raising capital;

(9) a description of any pending material litigation, legal proceedings, or regulatory action involving the MNvest issuer or any executive officers, directors, governors, managers, members, and other persons occupying a similar status or performing similar functions in the name of and on behalf of the MNvest issuer;

(11) a statement that the securities have not been registered under federal or state securities law and that the securities are subject to limitations on resale; and

(12) the following legend must be displayed conspicuously in the disclosure document:

"IN MAKING AN INVESTMENT DECISION, PURCHASERS MUST RELY ON THEIR OWN EXAMINATION OF THE ISSUER AND THE TERMS OF THE OFFERING, INCLUDING THE MERITS AND RISKS INVOLVED. THESE SECURITIES HAVE NOT BEEN RECOMMENDED BY ANY FEDERAL OR STATE SECURITIES COMMISSION OR DIVISION OR OTHER REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT CONFIRMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE. THESE SECURITIES ARE SUBJECT TO RESTRICTIONS ON TRANSFERABILITY AND RESALE AND MAY NOT BE TRANSFERRED OR RESOLD EXCEPT AS PERMITTED BY SUBSECTION (e) OF SEC RULE 147 (CODE OF FEDERAL REGULATIONS, TITLE 17, PART 230.147 (e)) AS PROMULGATED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AND THE APPLICABLE STATE SECURITIES LAWS, PURSUANT TO REGISTRATION OR EXEMPTION THEREFROM. PURCHASERS SHOULD BE AWARE THAT THEY WILL BE REQUIRED TO BEAR THE FINANCIAL RISKS OF THIS INVESTMENT FOR AN INDEFINITE PERIOD OF TIME."

Subd. 5. **Required certification from MNvest offering purchasers.** Before selling securities to a prospective purchaser through a MNvest portal, the MNvest issuer shall require the portal operator to obtain from the prospective purchaser through the applicable MNvest portal a written or electronic certification that includes, at a minimum, the following statements:

"I UNDERSTAND AND ACKNOWLEDGE THAT:

If I make an investment in an offering through this MNvest portal, it is very likely that I am investing in a high-risk, speculative business venture that could result in the complete loss of my investment, and I need to be able to afford such a loss.

This offering has not been reviewed or approved by any state or federal securities commission or division or other regulatory authority and that no such person or authority has confirmed the accuracy or determined the adequacy of any disclosure made to me relating to this offering.

If I make an investment in an offering through this MNvest portal, it is very likely that the investment will be difficult to transfer or sell and, accordingly, I may be required to hold the investment indefinitely.

By entering into this transaction with the company, I am affirmatively representing myself as being a Minnesota resident at the time that this contract is formed, and if this representation is subsequently shown to be false, the contract is void."

Subd. 6. **MNvest portal.** A MNvest portal must satisfy the requirements of clauses (1) through (4):

(1) the Web site does not contain the word "MNvest" in its URL address;

(2) the Web site implements steps to limit Web site access to the offer or sale of securities to only Minnesota residents when conducting MNvest offerings; and

(3) MNvest offerings may not be viewed on the MNvest portal by a prospective purchaser until:

(i) the portal operator verifies, through its exercise of reasonable steps, such as using a third-party verification service or as otherwise approved by the administrator, that the prospective purchaser is a Minnesota resident; and

(ii) the prospective purchaser makes an affirmative acknowledgment, electronically through the MNvest portal, that:

(A) I am a Minnesota resident;

(B) the securities and investment opportunities listed on this Web site involve high-risk, speculative business ventures. If I choose to invest in any securities or investment opportunity listed on this Web site, I may lose all of my investment, and I can afford such a loss;

(C) the securities and investment opportunities listed on this Web site have not been reviewed or approved by any state or federal securities commission or division or other regulatory authority, and no such person or authority, including this Web site, has confirmed the accuracy or determined the adequacy of any disclosure made to prospective investors relating to any offering; and

(D) if I choose to invest in any securities or investment opportunity listed on this Web site, I understand that the securities I will acquire may be difficult to transfer or sell, that there is no ready market for the sale

of such securities, that it may be difficult or impossible for me to sell or otherwise dispose of this investment at any price, and that, accordingly, I may be required to hold this investment indefinitely; and

(4) the Web site complies with all other rules adopted by the administrator.

Subd. 7. **Portal operator.** (a) An entity, other than a registered broker-dealer, wishing to become a portal operator shall file with the administrator:

(1) form [to be approved by the administrator], including all applicable schedules and supplemental information;

(2) a copy of the articles of incorporation or other documents that indicate the entity's form of organization; and

(3) a filing fee of \$200.

(b) A portal operator's registration expires 12 months from the date the administrator has approved the entity as a portal operator, and subsequent registration for the succeeding 12-month period shall be issued upon written application and upon payment of a renewal fee of \$200, without filing of further statements or furnishing any further information, unless specifically requested by the administrator. This section is not applicable to a registered broker-dealer functioning as a portal operator.

(c) A portal operator that is not a broker-dealer registered under this chapter shall not:

(1) offer investment advice or recommendations, provided that a portal operator shall not be deemed to be offering investment advice or recommendations merely because it (i) selects, or may perform due diligence with respect to, issuers or offerings to be listed, or (ii) provides general investor educational materials;

(2) provide transaction-based compensation for securities sold under this chapter to employees, agents, or other persons unless the employees, agents, or other persons are registered with the administrator and permitted to receive such compensation;

(3) charge a fee to the issuer for an offering of securities on a MNvest portal unless the fee is (i) a fixed amount for each offering, (ii) a variable amount based on the length of time that the securities are offered on the MNvest portal, or (iii) a combination of such fixed and variable amounts; or

(4) hold, manage, possess, or otherwise handle purchaser funds or securities. This restriction does not apply if the issuer is the portal operator.

(d) A portal operator shall provide the administrator with read-only access to administrative sections of the MNvest portal.

(e) A portal operator shall comply with the record-keeping requirements of this paragraph, provided that the failure of a portal operator that is not an issuer to maintain records in compliance with this paragraph shall not affect the MNvest issuer's exemption from registration afforded by this section:

(1) a portal operator shall maintain and preserve, for a period of five years from either the date of the closing or termination of the securities offering, the following records:

(i) the name of each issuer whose securities have been listed on its MNvest portal;

(ii) the full name, residential address, Social Security number, date of birth, and copy of a state-issued identification for all owners with greater than ten percent voting equity in an issuer;

(iii) copies of all offering materials that have been displayed on its MNvest portal;

(iv) the names and other personal information of each purchaser who has registered at its MNvest portal;

(v) any agreements and contracts between the portal operator and the issuer; and

(vi) any information used to establish that a MNvest issuer, prospective MNvest purchaser, or MNvest purchaser is a Minnesota resident;

(2) a portal operator shall, upon written request of the administrator, furnish to the administrator any records required to be maintained and preserved under this subdivision;

(3) the records required to be kept and preserved under this subdivision must be maintained in a manner, including by any electronic storage media, that will permit the immediate location of any particular document so long as such records are available for immediate and complete access by representatives of the administrator. Any electronic storage system must preserve the records exclusively in a nonrewriteable, nonerasable format; verify automatically the quality and accuracy of the storage media recording process; serialize the original and, if applicable, duplicate units storage media, and time-date for the required period of retention the information placed on such electronic storage media; and be able to download indexes and records preserved on electronic storage media to an acceptable medium. In the event that a records retention system commingles records required to be kept under this subdivision with records not required to be kept, representatives of the administrator may review all commingled records; and

(4) a portal operator shall maintain such other records as the administrator shall determine by rule.

Subd. 8. Portal operator; privacy of purchaser information. (a) For purposes of this subdivision, "personal information" means information provided to a portal operator by a prospective purchaser or purchaser that identifies, or can be used to identify, the prospective purchaser or purchaser.

(b) Except as provided in paragraph (c), a portal operator must not disclose personal information without written or electronic consent from the prospective purchaser or purchaser that authorizes the disclosure.

(c) Paragraph (b) does not apply to:

(1) records required to be provided to the administrator under subdivision 7, paragraph (e);

(2) the disclosure of personal information to a MNvest issuer relating to its MNvest offering; or

(3) the disclosure of personal information to the extent required or authorized under other law.

Subd. 9. Bad actor disqualification. (a) An exemption under this section is not available for a sale if securities in the MNvest issuer; any predecessor of the MNvest issuer; any affiliated issuer; any director, executive officer, other officer participating in the MNvest offering, general partner, or managing member of the MNvest issuer; any beneficial owner of 20 percent or more of the MNvest issuer's outstanding voting equity securities, calculated on the basis of voting power; any promoter connected with the MNvest issuer in any capacity at the time of the sale; any investment manager of an issuer that is a pooled investment fund; any general partner or managing member of any investment manager; or any director, executive officer, or

Subd. 6. Factors considered, generally. The commission, in the exercise of its powers under this chapter to determine just and reasonable rates for public utilities, shall give due consideration to the public need for adequate, efficient, and reasonable service and to the need of the public utility for revenue sufficient to enable it to meet the cost of furnishing the service, including adequate provision for depreciation of its utility property used and useful in rendering service to the public, and to earn a fair and reasonable return upon the investment in such property. In determining the rate base upon which the utility is to be allowed to earn a fair rate of return, the commission shall give due consideration to evidence of the cost of the property when first devoted to public use, to prudent acquisition cost to the public utility less appropriate depreciation on each, to construction work in progress, to offsets in the nature of capital provided by sources other than the investors, and to other expenses of a capital nature. For purposes of determining rate base, the commission shall consider the original cost of utility property included in the base and shall make no allowance for its estimated current replacement value. If the commission orders a generating facility to terminate its operations before the end of the facility's physical life in order to comply with a specific state or federal energy statute or policy, the commission may allow the public utility to recover any positive net book value of the facility as determined by the commission.

Sec. 18. Minnesota Statutes 2014, section 216B.16, subdivision 7b, is amended to read:

Subd. 7b. Transmission cost adjustment. (a) Notwithstanding any other provision of this chapter, the commission may approve a tariff mechanism for the automatic annual adjustment of charges for the Minnesota jurisdictional costs net of associated revenues of:

(i) new transmission facilities that have been separately filed and reviewed and approved by the commission under section 216B.243 or new transmission or distribution facilities that are certified as a priority project or deemed to be a priority transmission project under section 216B.2425;

(ii) new transmission facilities approved by the regulatory commission of the state in which the new transmission facilities are to be constructed, to the extent approval is required by the laws of that state, and determined by the Midcontinent Independent System Operator to benefit the utility or integrated transmission system; and

(iii) charges incurred by a utility under a federally approved tariff that accrue from other transmission owners' regionally planned transmission projects that have been determined by the Midcontinent Independent System Operator to benefit the utility or integrated transmission system.

(b) Upon filing by a public utility or utilities providing transmission service, the commission may approve, reject, or modify, after notice and comment, a tariff that:

(1) allows the utility to recover on a timely basis the costs net of revenues of facilities approved under section 216B.243 or certified or deemed to be certified under section 216B.2425 or exempt from the requirements of section 216B.243;

(2) allows the utility to recover charges incurred under a federally approved tariff that accrue from other transmission owners' regionally planned transmission projects that have been determined by the Midcontinent Independent System Operator to benefit the utility or integrated transmission system. These charges must be reduced or offset by revenues received by the utility and by amounts the utility charges to other regional transmission owners, to the extent those revenues and charges have not been otherwise offset;

(3) allows the utility to recover on a timely basis the costs net of revenues of facilities approved by the regulatory commission of the state in which the new transmission facilities are to be constructed and determined by the Midcontinent Independent System Operator to benefit the utility or integrated transmission system;

(4) allows the utility to recover costs associated with distribution planning required under section 216B.2425;

(5) allows the utility to recover costs associated with investments in distribution facilities to modernize the utility's grid that have been certified by the commission under section 216B.2425;

(6) allows a return on investment at the level approved in the utility's last general rate case, unless a different return is found to be consistent with the public interest;

~~(5)~~ (7) provides a current return on construction work in progress, provided that recovery from Minnesota retail customers for the allowance for funds used during construction is not sought through any other mechanism;

~~(6)~~ (8) allows for recovery of other expenses if shown to promote a least-cost project option or is otherwise in the public interest;

~~(7)~~ (9) allocates project costs appropriately between wholesale and retail customers;

~~(8)~~ (10) provides a mechanism for recovery above cost, if necessary to improve the overall economics of the project or projects or is otherwise in the public interest; and

~~(9)~~ (11) terminates recovery once costs have been fully recovered or have otherwise been reflected in the utility's general rates.

(c) A public utility may file annual rate adjustments to be applied to customer bills paid under the tariff approved in paragraph (b). In its filing, the public utility shall provide:

- (1) a description of and context for the facilities included for recovery;
- (2) a schedule for implementation of applicable projects;
- (3) the utility's costs for these projects;
- (4) a description of the utility's efforts to ensure the lowest costs to ratepayers for the project; and

(5) calculations to establish that the rate adjustment is consistent with the terms of the tariff established in paragraph (b).

(d) Upon receiving a filing for a rate adjustment pursuant to the tariff established in paragraph (b), the commission shall approve the annual rate adjustments provided that, after notice and comment, the costs included for recovery through the tariff were or are expected to be prudently incurred and achieve transmission system improvements at the lowest feasible and prudent cost to ratepayers.

Sec. 19. Minnesota Statutes 2014, section 216B.16, subdivision 19, is amended to read:

Subd. 19. **Multiyear rate plan.** (a) A public utility may propose, and the commission may approve, approve as modified, or reject, a multiyear rate plan as provided in this subdivision. The term "multiyear rate plan" refers to a plan establishing the rates the utility may charge for each year of the specified period of years, which cannot exceed ~~three~~ five years, to be covered by the plan. A utility proposing a multiyear rate plan shall provide a general description of the utility's major planned investments over the plan period. The commission may also require the utility to provide a set of reasonable performance measures and incentives that are quantifiable, verifiable, and consistent with state energy policies. The commission may allow the utility to adjust recovery of its cost of capital or other costs in a reasonable manner within the plan period. The utility may propose:

(1) recovery of the utility's forecasted rate base, based on a formula, a budget forecast, or a fixed escalation rate, individually or in combination. The forecasted rate base must include the utility's planned capital investments and investment-related costs, including income tax impacts, depreciation and property taxes, as well as forecasted capacity-related costs from purchased power agreements that are not recovered through subdivision 7;

(2) recovery of operations and maintenance expenses, based on an electricity-related price index or other formula;

(3) tariffs that expand the products and services available to customers, including, but not limited to, an affordability rate for low-income residential customers; and

(4) adjustments to the rates approved under the multiyear plan for rate changes that the commission determines to be just and reasonable, including, but not limited to, changes in the utility's cost of operating its nuclear facilities, or other significant investments not addressed in the plan.

(b) A utility that has filed a petition with the commission to approve a multiyear rate plan may request to be allowed to implement interim rates for the first and second years of the multiyear plan. If the commission approves the request, interim rates shall be implemented in the same manner as allowed under subdivision 3.

(c) The commission may approve a multiyear rate plan only if it finds that the plan establishes just and reasonable rates for the utility, applying the factors described in subdivision 6. Consistent with subdivision 4, the burden of proof to demonstrate that the multiyear rate plan is just and reasonable is on the public utility proposing the plan.

(b) (d) Rates charged under the multiyear rate plan must be based only upon the utility's reasonable and prudent costs of service over the term of the plan, as determined by the commission, provided that the costs are not being recovered elsewhere in rates. Rate adjustments authorized under subdivisions 6b and 7 may continue outside of a plan authorized under this subdivision.

(e) (e) The commission may, by order, establish terms, conditions, and procedures for a multiyear rate plan necessary to implement this section and ensure that rates remain just and reasonable during the course of the plan, including terms and procedures for rate adjustment. At any time prior to conclusion of a multiyear rate plan, the commission, upon its own motion or upon petition of any party, has the discretion to examine the reasonableness of the utility's rates under the plan, and adjust rates as necessary.

(d) (f) In reviewing a multiyear rate plan proposed in a general rate case under this section, the commission may extend the time requirements for issuance of a final determination prescribed in this section by an additional 90 days beyond its existing authority under subdivision 2, paragraph (f).

(e) (g) A utility may not file a multiyear rate plan that would establish rates under the terms of the plan until after May 31, 2012.

(h) The commission may initiate a proceeding to determine a set of performance measures that can be used to assess a utility operating under a multiyear rate plan.

Sec. 20. **[216B.1638] RECOVERY OF NATURAL GAS EXTENSION PROJECT COSTS.**

Subdivision 1. **Definitions.** (a) For the purposes of this section, the terms defined in this subdivision have the meanings given them.

(b) "Contribution in aid of construction" means a monetary contribution, paid by a developer or local unit of government to a utility providing natural gas service to a community receiving that service as the result of a natural gas extension project, that reduces or offsets the difference between the total revenue requirement of the project and the revenue generated from the customers served by the project.

(c) "Developer" means a developer of the project or a person that owns or will own the property served by the project.

(d) "Local unit of government" means a city, county, township, commission, district, authority, or other political subdivision or instrumentality of this state.

(e) "Natural gas extension project" or "project" means the construction of new infrastructure or upgrades to existing natural gas facilities necessary to serve currently unserved or inadequately served areas.

(f) "Revenue deficiency" means the deficiency in funds that results when projected revenues from customers receiving natural gas service as the result of a natural gas extension project, plus any contributions in aid of construction paid by these customers, fall short of the total revenue requirement of the natural gas extension project.

(g) "Total revenue requirement" means the total cost of extending and maintaining natural gas service to a currently unserved or inadequately served area.

(h) "Transport customer" means a customer for whom a natural gas utility transports gas the customer has purchased from another natural gas supplier.

(i) "Unserved or inadequately served area" means an area in this state lacking adequate natural gas pipeline infrastructure to meet the demand of existing or potential end-use customers.

Subd. 2. **Filing.** (a) A public utility may petition the commission outside of a general rate case for a rider that shall include all of the utility's customers, including transport customers, to recover the revenue deficiency from a natural gas extension project.

(b) The petition shall include:

(1) a description of the natural gas extension project, including the number and location of new customers to be served and the distance over which natural gas will be distributed to serve the unserved or inadequately served area;

(2) the project's construction schedule;

(3) the proposed project budget;

(4) the amount of any contributions in aid of construction;

(5) a description of efforts made by the public utility to offset the revenue deficiency through contributions in aid to construction;

(6) the amount of the revenue deficiency, and how recovery of the revenue deficiency will be allocated among industrial, commercial, residential, and transport customers;

(7) the proposed method to be used to recover the revenue deficiency from each customer class, such as a flat fee, a volumetric charge, or another form of recovery;

(8) the proposed termination date of the rider to recover the revenue deficiency; and

(9) a description of benefits to the public utility's existing natural gas customers that will accrue from the natural gas extension project.

Subd. 3. **Review; approval.** (a) The commission shall allow opportunity for comment on the petition.

(b) The commission shall approve a public utility's petition for a rider to recover the costs of a natural gas extension project if it determines that:

(1) the project is designed to extend natural gas service to an unserved or inadequately served area; and

(2) project costs are reasonable and prudently incurred.

(c) The commission must not approve a rider under this section that allows a utility to recover more than 33 percent of the costs of a natural gas extension project.

(d) The revenue deficiency from a natural gas extension project recoverable through a rider under this section must include the currently authorized rate of return, incremental income taxes, incremental property taxes, incremental depreciation expenses, and any incremental operation and maintenance costs.

Subd. 4. **Commission authority; order.** The commission may issue orders necessary to implement and administer this section.

Subd. 5. **Implementation.** Nothing in this section commits a public utility to implement a project approved by the commission. The public utility seeking to provide natural gas service shall notify the commission whether it intends to proceed with the project as approved by the commission.

Subd. 6. **Evaluation and report.** By January 15, 2017, and every three years thereafter, the commission shall report to the chairs and ranking minority members of the senate and house of representatives committees having jurisdiction over energy policy:

(1) the number of public utilities and projects proposed and approved under this section;

(2) the total cost of each project;

(3) rate impacts of the cost recovery mechanism; and

(4) an assessment of the effectiveness of the cost recovery mechanism in realizing increased natural gas service to unserved or inadequately served areas from natural gas extension projects.

Sec. 21. Minnesota Statutes 2014, section 216B.164, subdivision 3, is amended to read:

Subd. 3. Purchases; small facilities. (a) This paragraph applies to cooperative electric associations and municipal utilities. For a qualifying facility having less than 40-kilowatt capacity, the customer shall be billed for the net energy supplied by the utility according to the applicable rate schedule for sales to that class of customer. A cooperative electric association or municipal utility may charge an additional fee to recover the fixed costs not already paid for by the customer through the customer's existing billing arrangement. Any additional charge by the utility must be reasonable and appropriate for that class of customer based on the most recent cost of service study. The cost of service study must be made available for review by a customer of the utility upon request. In the case of net input into the utility system by a qualifying facility having less than 40-kilowatt capacity, compensation to the customer shall be at a per kilowatt-hour rate determined under paragraph (c) or (d), or (f).

(b) This paragraph applies to public utilities. For a qualifying facility having less than 1,000-kilowatt capacity, the customer shall be billed for the net energy supplied by the utility according to the applicable rate schedule for sales to that class of customer. In the case of net input into the utility system by a qualifying facility having: (1) more than 40-kilowatt but less than 1,000-kilowatt capacity, compensation to the customer shall be at a per kilowatt-hour rate determined under paragraph (c); or (2) less than 40-kilowatt capacity, compensation to the customer shall be at a per-kilowatt rate determined under paragraph (c) or (d).

(c) In setting rates, the commission shall consider the fixed distribution costs to the utility not otherwise accounted for in the basic monthly charge and shall ensure that the costs charged to the qualifying facility are not discriminatory in relation to the costs charged to other customers of the utility. The commission shall set the rates for net input into the utility system based on avoided costs as defined in the Code of Federal Regulations, title 18, section 292.101, paragraph (b)(6), the factors listed in Code of Federal Regulations, title 18, section 292.304, and all other relevant factors.

(d) Notwithstanding any provision in this chapter to the contrary, a qualifying facility having less than 40-kilowatt capacity may elect that the compensation for net input by the qualifying facility into the utility system shall be at the average retail utility energy rate. "Average retail utility energy rate" is defined as the average of the retail energy rates, exclusive of special rates based on income, age, or energy conservation, according to the applicable rate schedule of the utility for sales to that class of customer.

(e) If the qualifying facility or net metered facility is interconnected with a nongenerating utility which has a sole source contract with a municipal power agency or a generation and transmission utility, the non-generating utility may elect to treat its purchase of any net input under this subdivision as being made on behalf of its supplier and shall be reimbursed by its supplier for any additional costs incurred in making the purchase. Qualifying facilities or net metered facilities having less than 1,000-kilowatt capacity if interconnected to a public utility, or less than 40-kilowatt capacity if interconnected to a cooperative electric association or municipal utility may, at the customer's option, elect to be governed by the provisions of subdivision 4.

(f) A customer with a qualifying facility or net metered facility having a capacity below 40 kilowatts that is interconnected to a cooperative electric association or a municipal utility may elect to be compensated for the customer's net input into the utility system in the form of a kilowatt-hour credit on the customer's energy bill carried forward and applied to subsequent energy bills. Any kilowatt-hour credits carried forward by the customer cancel at the end of the calendar year with no additional compensation.

EFFECTIVE DATE. This section is effective July 1, 2015, and applies to customers installing net metered systems after that day.

Sec. 22. Minnesota Statutes 2014, section 216B.2425, is amended to read:

Subd. 2. **List development; transmission projects report.** (a) By November 1 of each odd-numbered year, a transmission projects report must be submitted to the commission by each utility, organization, or company that:

(1) is a public utility, a municipal utility, a cooperative electric association, the generation and transmission organization that serves each utility or association, or a transmission company; and

(2) owns or operates electric transmission lines in Minnesota, except a company or organization that owns a transmission line that serves a single customer or interconnects a single generating facility.

(b) The report may be submitted jointly or individually to the commission.

(c) The report must:

(1) list specific present and reasonably foreseeable future inadequacies in the transmission system in Minnesota;

(2) identify alternative means of addressing each inadequacy listed;

(3) identify general economic, environmental, and social issues associated with each alternative; and

(4) provide a summary of public input related to the list of inadequacies and the role of local government officials and other interested persons in assisting to develop the list and analyze alternatives.

(d) To meet the requirements of this subdivision, reporting parties may rely on available information and analysis developed by a regional transmission organization or any subgroup of a regional transmission organization and may develop and include additional information as necessary.

(e) In addition to providing the information required under this subdivision, a utility operating under a multiyear rate plan approved by the commission under section 216B.16, subdivision 19, shall identify in its report investments that it considers necessary to modernize the transmission and distribution system by enhancing reliability, improving security against cyber and physical threats, and by increasing energy conservation opportunities by facilitating communication between the utility and its customers through the use of two-way meters, control technologies, energy storage and microgrids, technologies to enable demand response, and other innovative technologies.

Subd. 3. **Commission approval.** By June 1 of each even-numbered year, the commission shall adopt a state transmission project list and shall certify, certify as modified, or deny certification of the transmission and distribution projects proposed under subdivision 2. The commission may only certify a project that is a high-voltage transmission line as defined in section 216B.2421, subdivision 2, that the commission finds is:

(1) necessary to maintain or enhance the reliability of electric service to Minnesota consumers;

(2) needed, applying the criteria in section 216B.243, subdivision 3; and

(3) in the public interest, taking into account electric energy system needs and economic, environmental, and social interests affected by the project.

Subd. 4. **List; effect.** Certification of a project as a priority electric transmission project satisfies section 216B.243. A certified project on which construction has not begun more than six years after being placed on the list, must be reapproved by the commission.

Subd. 5. **Transmission inventory.** The Department of Commerce shall create, maintain, and update annually an inventory of transmission lines in the state.

Subd. 6. **Exclusion.** This section does not apply to any transmission line proposal that has been approved by, or was pending before, a local unit of government, the Environmental Quality Board, or the Public Utilities Commission on August 1, 2001.

Subd. 7. **Transmission needed to support renewable resources.** (a) Each entity subject to this section shall determine necessary transmission upgrades to support development of renewable energy resources required to meet objectives under section 216B.1691 and shall include those upgrades in its report under subdivision 2.

(b) MS 2008 [Expired]

Subd. 8. **Distribution study for distributed generation.** Each entity subject to this section that is operating under a multiyear rate plan approved under section 216B.16, subdivision 19, shall conduct a distribution study to identify interconnection points on its distribution system for small-scale distributed generation resources and shall identify necessary distribution upgrades to support the continued development of distributed generation resources, and shall include the study in its report required under subdivision 2.

Sec. 23. Minnesota Statutes 2014, section 216B.62, subdivision 3b, is amended to read:

Subd. 3b. **Assessment for department regional and national duties.** In addition to other assessments in subdivision 3, the department may assess up to \$1,000,000 per fiscal year for performing its duties under section 216A.07, subdivision 3a. The amount in this subdivision shall be assessed to energy utilities in proportion to their respective gross operating revenues from retail sales of gas or electric service within the state during the last calendar year and shall be deposited into an account in the special revenue fund and is appropriated to the commissioner of commerce for the purposes of section 216A.07, subdivision 3a. An assessment made under this subdivision is not subject to the cap on assessments provided in subdivision 3 or any other law. For the purpose of this subdivision, an "energy utility" means public utilities, generation and transmission cooperative electric associations, and municipal power agencies providing natural gas or electric service in the state. This subdivision expires June 30, ~~2015~~ 2017.

Sec. 24. **[216H.077] LEGISLATIVE REVIEW.**

Sec. 26. COMPETITIVE RATE FOR ENERGY-INTENSIVE, TRADE-EXPOSED ELECTRIC UTILITY CUSTOMER.

Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have the meanings given them.

(b) "Clean energy technology" is energy technology that generates electricity from a carbon neutral generating resource including, but not limited to, solar, wind, hydroelectric, and biomass.

(c) "Energy-intensive trade-exposed customer" is defined to include:

(1) an iron mining extraction and processing facility, including a scam mining facility as defined in Minnesota Rules, part 6130.0100, subpart 16;

(2) a paper mill, wood products manufacturer, sawmill, or oriented strand board manufacturer;

(3) a steel mill and related facilities; and

(4) a retail customer of an investor-owned electric utility that has facilities under a single electric service agreement that: (i) collectively imposes a peak electrical demand of at least 10,000 kilowatts on the electric utility's system, (ii) has a combined annual average load factor in excess of 80 percent, and (iii) is subject to globally competitive pressures and whose electric energy costs are at least ten percent of the customer's overall cost of production.

(d) "EITE rate schedule" means a rate schedule under which an investor-owned electric utility may set terms of service to an individual or group of energy-intensive trade-exposed customers.

(e) "EITE rate" means the rate or rates offered by the investor-owned electric utility under an EITE rate schedule.

Subd. 2. Rates and terms of EITE rate schedule. (a) It is the energy policy of the state of Minnesota to ensure competitive electric rates for energy-intensive trade-exposed customers. To achieve this objective, an investor-owned electric utility that has at least 50,000 retail electric customers, but no more than 200,000 retail electric customers, shall have the ability to propose various EITE rate options within their service territory under an EITE rate schedule that include, but are not limited to, fixed-rates, market-based rates, and rates to encourage utilization of new clean energy technology.

(b) Notwithstanding Minnesota Statutes, section 216B.03, 216B.05, 216B.06, 216B.07, or 216B.16, the commission shall, upon a finding of net benefit to the utility or the state, approve an EITE rate schedule and any corresponding EITE rate.

(c) The commission shall make a final determination in a proceeding begun under this section within 90 days of a miscellaneous rate filing by the electric utility.

(d) Upon approval of any EITE rate schedule, the utility shall create a separate account to track the difference in revenue between what would have been collected under the electric utility's applicable standard tariff and the EITE rate schedule. In its next general rate case or through an EITE cost recovery rate rider between general rate cases, the commission shall allow the utility to recover any costs, including reduced revenues, or refund any savings, including increased revenues, associated with providing service to a customer under an EITE rate schedule. The utility shall not recover any costs or refund any savings under this section from any energy-intensive trade-exposed customer or any low-income residential ratepayers as defined in Minnesota Statutes, section 216B.16, subdivision 15.

Subd. 3. Low-income funding. Upon the filing of a utility for approval of an EITE rate schedule under this section, the filing utility must deposit \$10,000 into an account devoted to funding a program approved by the commission under Minnesota Statutes, section 216B.16, subdivision 15. The funds shall be used to expand the outreach of the commission-approved affordability program.

Subd. 4. Assessment. The commissioner of commerce shall assess reasonable costs it incurs for services it provides to implement this section to the utility proposing an EITE rate schedule to the commission. The department must not assess more than \$854,000 per biennium under this subdivision.

ARTICLE 4**HOUSING**

Section 1. Minnesota Statutes 2014, section 327.20, subdivision 1, is amended to read:

Subdivision 1. **Rules.** No domestic animals or house pets of occupants of manufactured home parks or recreational camping areas shall be allowed to run at large, or commit any nuisances within the limits of a manufactured home park or recreational camping area. Each manufactured home park or recreational camping area licensed under the provisions of sections 327.10, 327.11, and 327.14 to 327.28 shall, among other things, provide for the following:

(1) A responsible attendant or caretaker shall be in charge of every manufactured home park or recreational camping area at all times, who shall maintain the park or area, and its facilities and equipment in a clean, orderly and sanitary condition. In any manufactured home park containing more than 50 lots, the attendant, caretaker, or other responsible park employee, shall be readily available at all times in case of emergency.

(2) All manufactured home parks shall be well drained and be located so that the drainage of the park area will not endanger any water supply. No wastewater from manufactured homes or recreational camping vehicles shall be deposited on the surface of the ground. All sewage and other water carried wastes shall be discharged into a municipal sewage system whenever available. When a municipal sewage system is not available, a sewage disposal system acceptable to the state commissioner of health shall be provided.

(3) No manufactured home shall be located closer than three feet to the side lot lines of a manufactured home park, if the abutting property is improved property, or closer than ten feet to a public street or alley. Each individual site shall abut or face on a driveway or clear unoccupied space of not less than 16 feet in width, which space shall have unobstructed access to a public highway or alley. There shall be ~~an open~~ a space of at least ten feet between the sides of adjacent manufactured homes including their attachments and at least three feet between manufactured homes when parked end to end. The space between manufactured homes may be used for the parking of motor vehicles and other property, ~~if the vehicle or other property is parked at least ten feet from the nearest adjacent manufactured home position.~~ The requirements of this paragraph shall not apply to recreational camping areas and variances may be granted by the state commissioner of health in manufactured home parks when the variance is applied for in writing and in the opinion of the commissioner the variance will not endanger the health, safety, and welfare of manufactured home park occupants.

(4) An adequate supply of water of safe, sanitary quality shall be furnished at each manufactured home park or recreational camping area. The source of the water supply shall first be approved by the state Department of Health.

(5) All plumbing shall be installed in accordance with the rules of the state commissioner of labor and industry and the provisions of the Minnesota Plumbing Code.

(6) In the case of a manufactured home park with less than ten manufactured homes, a plan for the sheltering or the safe evacuation to a safe place of shelter of the residents of the park in times of severe weather conditions, such as tornadoes, high winds, and floods. The shelter or evacuation plan shall be developed with the assistance and approval of the municipality where the park is located and shall be posted at conspicuous locations throughout the park. The park owner shall provide each resident with a copy of

the approved shelter or evacuation plan, as provided by section 327C.01, subdivision 1c. Nothing in this paragraph requires the Department of Health to review or approve any shelter or evacuation plan developed by a park.
